## FROM THE INSTRUCTOR

This course can be utilized by the clinician in any setting, from pediatric to geriatric, from orthopedic to neurologic. It also can benefit the most experienced clinician to the new graduate. It also can be integrated immediately and easily into your daily practice with patients, having immediate results, such as improved outcomes, and decreased visits needed for clinical success..

This is my life's work, and I look forward to sharing it and the evidence behind it.....

**Jeff Giuliotti, MPT, ATC, OCS, CSCS, COMT, FAAOMPT**

He has taught his original work, Dynamic Proprioception® since 2003. Over 20 years clinical experience, he holds a Masters degree Physical Therapy, Slippery Rock University of Pennsylvania, B.S. degree in Exercise & Sport Science, emphasis Athletic Training, Oregon State University. In addition to his dual training as ATC and PT, he is also a Certified Strength & Conditioning Specialist (CSCS) through the National Strength & Conditioning Association, Certified Orthopedic Manipulative Therapist (COMT) through the North American Institute of Orthopedic Manual Therapy (NAIOMT), Board Certified Orthopedic Clinical Specialist (OCS) through the APTA Board of PT Specialties, Fellow with the American Academy of Orthopaedic Manual Physical Therapy (FAAOMPT), and also an APTA Credentialed Clinical Instructor. He is published in the Journal of Athletic Training.

In addition to teaching seminars, he has been Adjunct Professor in the Athletic Training Curriculum, Exercise & Sport Science Department at Oregon State University. He has served as ATC in high school, university, levels, as PT in Hospital based Acute, Neuro, and Rehab units, and orthopedic settings, and more recently as ATC/PT at the Olympic level in 2000 and 2008 Olympic Trials Track & Field.

He is co-owner and co-founder of Eugene Physical Therapy, LLC in Eugene, Oregon where he continues in private practice. He is husband of 16 years and father of 4 children.

## LEARNING OBJECTIVES

- Be able to understand the nature of proprioception, its components; historical and landmark research.
- Be able to perform both a static and dynamic assessment of proprioception of the Upper & Lower Quarter..
- Obtain a knowledge of how to address various proprioceptive deficits with treatment patterns practiced in Laboratory sessions.
- Engage in problem solving with Live Case Studies

## EDUCATIONAL FORMAT

The course will be presented through 15 contact hours of slides, lectures, case study review, Live Case Study demonstrations and lab sessions.

## COURSE PREREQUISITES

- Either PT, PTA, or ATC.

## PREVIOUS COMMENTS FROM COURSE ATTENDEES

*"....I started using this information the very next day with my patients and it was great!!"*

*"....this is what McKenzie and Manual Therapy is lacking....."*

*"....this course can be utilized in ANY setting of patients in rehabilitation....."*

*" ....Thank you for giving us eyes to see...."*
