

Nathan Moore, SPT (Doctoral Candidate)

Nathan Moore is a Doctoral Physical Therapy Resident from Eastern Washington University.

Per his Doctoral degree training, he has received specific training in differential diagnosis, pharmacology, radiology and imaging, manual therapy, therapeutic interventions, prevention and wellness, neuroscience, pediatrics, and geriatrics.

Nathan has interests in manual therapy, sports medicine, and vestibular and neurological diagnoses. He has had past clinical experiences here in Eugene in outpatient and acute care, specializing in neurology.

Evidence-based practice is important to Nathan and as such he has been active in research throughout his doctoral degree. Like all of our PT staff, he is a member of the American Physical Therapy Association and he is set to present his research at the APTA combined sections meeting this February, 2022.

Eugene PT has a strong commitment to education. Its PT staff not only teach post-graduate courses throughout the United States, but have four APTA Credentialed Clinical Instructors that supervise final residency programs prior to DPT graduates taking their Board Examinations. Our clinical education program has gained a reputation over time, having contracts with over 10 universities throughout the U.S.A. Our goal is to train our PT Residents to be able to provide the exceptional standard of care that is our mission. Seeing any of our Residents should be a rewarding experience given the training they have been and are presently being given.

Preceptor: Jeff Giulietti, MPT, ATC, OCS, CSCS, COMT, FAAOMPT, USAW-SPC

RECENT PROFESSIONAL ACTIVITIES

Teaching assistant, Eastern Washington University DPT program, January-June 2020
Research assistant, Eastern Washington University DPT program, June 2019-Present

EDUCATION

D.P.T. Candidate, **Eastern Washington University**, Spokane, Washington (05/2021)
B.S. in Biology, **Northwest Nazarene University**, Nampa, ID (05/2018)
Graduated Magna Cum Laude

GRADUATE RESEARCH

- ❖ Tanya LaPier, PT, PhD, CCS; Kimberly Cleary, PT, PhD; Sean Sibley sDPT; Nathan Moore, sDPT
Evidence-Based Promotion of Activity for Patients Recovering from Cardiac Surgery Using Pectoralis Major Muscle Electromyography. **Eastern Washington University**
- ❖ Dominic Severino PT, DPT, OCS, FAAOMPT; Sean Sibley sDPT; Nathan Moore, sDPT
The Treatment of Lumbar Spinal Stenosis Using Blood Flow Restriction and Manual Therapy: a case report
Eastern Washington University
